KANUHA FILES HIS DISPENSARY BILL

(Continued from Page 9.)

Kohala, to Puuhue, we would recommend an item of \$4,500 be inserted in the appropriation bill.

"The last item asked for we consider will be covered by the appropriation bill. We therefore recommend the resolution be laid on the table, to be considered with the appropriation bill."

After more or less argument the resolution was adopted.

Carter made his first appearance as one of the judiciary committee and was forced to bring in a report as the minority, recommending that bill 26 be laid on the table in order that it might be rearranged. This was done and it will be considered in connection with the majority report.

Cecil Brown made his report for the select committee appointed on the matter of the Senate stenographer. The following resolution contains the substance of the report:

"Be it resolved, That the stenographer be paid for the services to be rendered and already rendered by him during the term of the present session the sum of \$1,000; that he furnish the copy of each day's proceedings, duly transcribed from his stenographic notes; such proceedings shall contain as nearly as can be a full record of all speeches made and proceedings had during each day's session of the Senate to the clerk of the Senate."

"That said clerk shall cause five hundred copies of each day's proceedings so furnished to be printed each day in the English and Hawaiian languages distributed among or furnished the Senators for distribution in such manner as they see fit. And be it further

"Resolved, That the resolution heretofore passed commanding the clerk to print five hundred copies each day of the journal of the Senate be rescinded."

Senator Carter wished to amend the resolution so that it would provide for the printing only of 250 copies in English and a like number in the Hawaiian language and the report as amended was subsequently adopted.

Senator Kalaokalani reported for the Molokai committee and stated that so much labor was involved in making up a complete report of their work that the committee had been unable to finish it and therefore asked for more time, which was granted.

An act regulating the observance of the Sabbath was read by Cecil Brown and this was also permitted to take the usual course.

Senator Kaohi was given permission to read by title his bill relating to the fisheries and this met with the fate of its predecessor.

Kaohi continued to hold the floor and gave notice of his intention to introduce

the following bill: "An act to control and regulate the manufacture, transportation and sale of liquors, opium, and other intoxicants within the Territory of Hawaii."

The following concurrent resolution was also presented by the same Senator:

"Be it resolved by the Senate, the House of Representatives concurring, that the standing committees of the Senate and of the House of Representatives having in charge public expenditure, the examination of several public departments and the ascertaining of whether public monies have been disbursed conformably with the law, shall meet for the following purposes:

"First—In order to more systematically perform their duties and plan their work to the best advantage.

"Second—To arrange for the joint employment of expert accountants, clerks and such other assistance as may be deemed necessary in order to obtain results with speed, accuracy and economy."

DAVID KANUHA,
Chairman Committee on Ways and Means."

More argument followed the introduction of this resolution than that of any other during the day and many heated speeches were made by the Senators representing the opposing parties.

Cecil Brown, as representative of the minority, wanted the resolution adopted, but was immediately followed by Senator White, who moved to reject.

Kanuha spoke in favor of his resolution, saying that he had prepared it on the lines of strict economy, but it was evident that the Home Rulers were not in sympathy with an economical movement and were anxious to put their hands on some of the people's money.

Carter managed to discover a point of order and informed the chair that he could not sustain two motions at once and after due deliberation the chair sustained the Senator.

As has been usual during the last few days of the Senate, White at once appealed from the chair, but much to his surprise the vote was a tie and the chair was sustained.

White then moved the resolution be laid on the table and the third tie of the day resulted, but the chair voted to lay the resolution on the table and the matter, for the day at least, was ended.

Several bills were brought up for their second reading and the usual course was followed after the customary delay and fencing back and forth between the opposing parties.

The Senate will convene as usual this morning.

Nawahi Memorial.

Yesterday afternoon a memorial was held in the St. Andrews' Priory chapel for the late Miss Kalei Nawahi, for a long time a pupil and later a teacher in that institution. The young lady died at Hilo last Thursday and was buried there the following day. The interior of the chapel was draped with mourning and many old pupils were present. The service was conducted by the Rev. V. H. Kiteat, who read special psalms and prayers. The Priory pupils sang two hymns, accompanied on the organ by Wray Taylor. They were "Brief Life Is Our Portion" and "On the Resurrection Morning." The address by Mr. Kiteat was very impressive and particularly appropriate to the occasion.

There are further rumors of a revolt in Kansu, China.
